Discovery Site Evaluation Checklist

(To be completed by a member of the WIDS Team and included with the data package for a newly discovered potential waste management unit.)

WIDS	Site Code:	300-285				
WIDS	Site Names (Aliases): 300-285, 300 Area Steam Condensate French Drains/Dry Wells, Ten French Drains and Dry Wells in 300 Area					
	Waste I	Management Unit Not a Waste Management Unit				
Does the unit receive uncontaminated rainwater runoff only? If 1 is YES, check NOT A WASTE MANAGEMENT UNIT above and stop. If 1 is NO, go to 2.						
A 'YES' to any of Items 2 through 7 indicates the site is a waste management unit, as defined in Section of the Tri-Party Agreement Action Plan. (Items 2 through 7 correspond with the six waste management types found in the Tri Party Agreement definition.)						
2.	Complete items 2.a through 2.f below to determine if the unit is a solid waste management unit (SWMU) as specified under WAC 173-303-040.					
2.a	Is the material at the unit a waste (i.e., a regulated waste or a discarded material, including garbage, refuse, sludge, construction/demolition debris, industrial/sanitary wastewater or other discarded solid, liquid, semisolid, or contained gas)?					
	If 2.a is NO, check NO for 2 and go to 3. If 2.a is YES, go to 2.b.					
2.b	Is the waste from historical residental activities (i.e., not from industrial, Y N commercial, mining, agricultural, or community activities)?					
2.c	Is the unit an industrial wastewater point discharge permitted under the Clean Y N Water Act (i.e., National Pollutant Discharge Elimination System permit)?					
2.d	Does the waste consist regulated by the <i>Atomic</i>	only of source, special nuclear, or byproduct material Y N Energy Act?				
	If 2.b, 2.c, or 2.d is YES, the site is not a SWMU. If so, check NO for 2 and go to 3. If 2.b, 2.c, and 2.d are all NO go to 2.e.					
2.e	impoundment, land treatincinerator, injection wel	n a discemable unit (i.e., a landfill, surface Y N tment unit, waste pile, tank, container storage area, ll, wastewater treatment unit, waste recycling unit, or l, or biological treatment unit)?				
	If 2.e is YES, check YE	S for 2 and go to 3. If 2.e is NO, go to 2.f.				
2.f	small but steady dischar	outine and systematic discharges (i.e., areas receiving Y N rges over time from systematic human activity, such as operations, solvent washing, industrial process sewer				
	If 2.f is YES, check YES	S for 2. If 2.f is NO, check NO for 2. Go to 3.				

WIDS	Site Code : 300-285					
3.	Is the unit a waste disposal unit? (Complete items 3.a and 3.b below)					
3.a	Does the unit require a RCRA permit for the disposal of dangerous or mixed Y N N					
3.b	B.b Have hazardous wastes or substances been disposed of in a burial ground, pit, Y pond, ditch, crib, trench, french drain, or land surface that is not subject to regulation as a RCRA disposal unit and may require action to mitigate a potential environmental impact (e.g., radioactive waste disposal units, pre-RCRA units)?					
	If either 3.a or 3.b is YES, check YES for 3. If both are NO, check NO for 3. Go to 4.					
4.	4. Is the unit an unplanned release that has not been adequately cleaned up and represents a potential threat to human health or the environment (i.e., releases above CERCLA reportable quantities defined in 40 CFR 302.4; other hazardous substance releases, including petroleum, that may require action to mitigate a potential environmental impact)?					
5.	Is the unit an inactive, contaminated structure?					
6.	5. Does the unit require a RCRA permit for the treatment or storage of dangerous or mixed waste?					
7.	7. Is the unit another type of storage unit that may require action to mitigate a potential environmental impact (e.g., radioactive waste storage unit)?					
If 2, 3, 4, 5, 6, or 7 is YES, check WASTE MANAGEMENT UNIT at the top of the first page of the first page.
